3.- KAKO NALOŽITI VAJO.

Vaja je sestavljena iz enega ali več modelov. Priporočeno je, da najprej naložite modele, nato pa jih dodate vajam. V nekaterih primerih lahko za vajo uporabite že obstoječe modele na platformi. Če to drži v vašem primeru, lahko ta korak preskočite.

+ Create new model

+ Add New exercise

Če želite ustvariti model ali naložiti vajo, lahko to storite na dva načina:

- 1. Iz razdelka za vaje ali modele (odvisno od tega, kaj želite naložiti).
 - na dnu strani v razdelku za modele boste našli gumb "ustvari nov model".

na dnu strani v razdelku za vaje boste našli gumb "dodaj novo vajo".

Page 8 of 15

2. Dostopate lahko tudi preko gumba "moj račun"

1 → Priložite opisno sliko vaše vaje.

2 → Vključite tudi uporabo modela in opis le-tega; kaj je glavni cilj artefakta in za kaj je uporabljen v učilnici. Prosimo, da poskusite vključiti tudi čim več podrobnosti za boljše razumevanje tega, kaj učenci pridobijo z uporabo modela. Vključite lahko več tem dizajna, toliko, kot jih natisnjen predmet lahko sprejme.

Page 12 of 15

3 → V tem razdelku moramo estetsko opisati model, pri čemer moramo podati vse možne informacije, da lahko oblikovalec razume, kaj oblikuje, na primer število sestavnih kosov, opis vsakega kosa (oblika), približna/zaželena merila montaže ali delov, barve ...

Poleg tega naj bi sestavili še kratek opis z izobraževalne in didaktične perspektive. Kaj model predstavlja, zakaj je bil izbran, za kaj se uporablja, na katere načine je lahko uporabljen med učnimi urami.

4 → Na tej strani lahko vstavite slike, povezave z dodatnimi informacijami, videoposnetke, grafike,

License Info	·			 		
License selector not set	¢	Licens	e details			

infografike, da bolj razložite vajo, ki bi jo radi realizirali.

Tako kot za model, morate tudi tukaj vnesti vrsto licence, ki najbolj ustreza vašim potrebam. Če izberete eno izmed Creative Commons, ki so ponujene na seznamu, bodo vsa polja izpolnjena samodejno.

Ko ste shranili spremembe, ki ste jih naredili, morate priložiti model, ki ste ga ustvarili prej (če ustrezajo vaši vaji, lahko uporabite tiste, ki so že dostopni na platformi). Naložite lahko toliko modelov, kot jih potrebujete za vašo vajo. Poiščete jih po imenu v iskalnem oknu (1) in kliknete "Oddaj" (Submit). Model oz. modeli bodo priloženi in videli jih boste v delu "modeli, uporabljeni v vajah" (Models used in this exercise) (2).

 3→ Če želite na tej točki ustvariti nov model za vašo vajo, lahko to naredite s klikom na "+ nov model" (+ New Model). Preusmerjeni boste na razdelek za ustvarjanje modela.

4 → Prišli ste do konca! Za objavo vaje na platformi kliknite na "Objavi" (Publish) in našli jo boste na glavni strani z ostalimi vajami. Enako se bo zgodilo z vašimi modeli, našli jih boste na strani "Modeli" (Models).

Page 15 of 15

Modele in vaje lahko upravljate v razdelku "moj račun" (My account).
